A Work of Heart.

We opened our first Montessori school in 1996 with a deep conviction that every child deserves to be happy and feel loved.

Together, we are united in our belief that when you nurture children's unique gifts, encourage them to be their most authentic selves, and empower them to lead with heart, they become the best version of themselves.

Over the years, The Clover School has grown into a vibrant community that has served thousands of families in the heart of Toronto. We are proud of what we have built—a place where dedicated teachers and thriving students are excited to learn together and truly love being at school.

The Clover School offers your child a supportive and intellectually stimulating Montessori environment. Our highly trained and engaged educators will encourage them to find their passion and help them to become an ethical and responsible contributor to the world around them.

Our goal is to help your child build resilience, integrity, and self-confidence. We help parents raise joyful and conscientious human beings who understand who they are, what they value, and who know that they are uniquely capable of making a positive impact in this world.

We embrace learning as a lifelong journey at The Clover School, and we can't wait to embark on that journey with you!

With ♥,

Sandra Bosnar-Dale & Isabelle Kunicki
Founders and Directors of The Clover School

CLOVER

LOVE is at the centre of everything we do at The Clover School. That's why we're called...

The school with ❤️.

Each child is unique, and therefore has the potential for a kind of excellence that is unique to them. Montessori is an educational philosophy designed to bring out the best in that potential.

The Clover School is a CCMA-accredited, heart-centred Montessori school with a unique signature curriculum designed to meet the needs of contemporary childhood.

Our school provides a nurturing learning environment rooted in the Montessori philosophy of education. Our signature programming is forward thinking and reflective with an emphasis on authenticity, creativity, evolution, and growth. We offer warm, vibrant, and child-centred classrooms that foster wellbeing in every sense—where children can explore, discover, and direct their own academic path based on what interests them most.

Our students flourish as intelligent, confident, and compassionate individuals, poised for the future... and the future is bright!

The four-leaf clover represents the four pillars of our signature curriculum.

Mind

Our rigorous, inquiry-based Montessori curriculum encourages children to find the joy in learning. Our classrooms are designed to allow students to follow their unique passions and innate curiosity, fostering critical thinking, fearless discovery, and resilience, enabling them to feel a sense of accomplishment as they cultivate the skills of the mind.

Heart

The Clover School is a place of kindness, patience, tolerance, mutual recognition, and support. We value individuality, authenticity, social emotional learning, courage, compassion, and self-awareness. We help our students learn how to lead with heart in all that they do, in the classroom and beyond.

Health

We believe that conscious living is fundamental to a child's wellbeing. At The Clover School, we understand that smart nutrition, physical exercise, self-love, respect, and a daily mindfulness practice of meditation, gratitude, journaling, and intention setting can make incredible contributions to overall health and wellness.

Soul

At the Clover School, we champion a sense of connectedness to the world around us. We understand that a deep appreciation of the awe-inspiring force of the natural world can lead to transformative experiences that feed the soul. We facilitate this through nature-based learning, urban farming, outdoor education, and self-expression through the arts.

Why Montessori.

Montessori is a timeless approach to education with a powerful legacy of proven success. For over a century, the Montessori model has equipped children around the world with a distinct academic advantage that lasts a lifetime.

Children are born with an innate desire to learn, a natural curiosity that inspires them to explore the world around them. A good education channels this innate desire and helps it grow. Montessori fundamentals like uninterrupted work time, concrete, experiential learning, and peer-to-peer teaching give children a sense of passion, proficiency, and purpose in the classroom.

Our CCMA-accredited programs offer an authentic and progressive Montessori experience in a warm and vibrant learning environment where children can explore, discover, and develop as intelligent, confident, and compassionate individuals.

Beautiful classroom environments designed to facilitate sensorial exploration and hands-on experiential learning.

Mixed-age communities foster opportunities for enhanced social interaction, deeper, more connected relationships, peer-to-peer learning, and collaboration.

Self-directed learning helps to cultivate creative thinking, an entrepreneurial mindset, and a sense of independence and confidence.

Inquiry-based learning inspires perpetual curiosity, critical thinking skills, and a joyfulness towards learning that lasts a lifetime.

At The Clover School, each child is recognized as unique, with certain gifts that are their own. Our Montessori learning environments give them the freedom to learn both social and academic skills in a variety of different ways, accommodating a wide range of learning styles. Allowing students the freedom to work at their own pace and follow their own interests helps foster joyful engagement, resourcefulness, and inspires curiosity with supportive guidance from expert teachers. This approach gives them skills and systems of accountability, meaningful and challenging learning, responsibility, time and project

management skills, and helps create an environment that fosters self-regulation as well as motivated and successful learning outcomes.

The overwhelming success of these classroom practices has given the Montessori philosophy of education its reputation as a 'potent predictor of future success.' Montessori at The Clover School offers children a chance to develop their potential as they step out into the world as engaged, responsible, and respectful citizens who embrace learning as a lifelong journey, and when children have that, their potential is truly limitless.

Pedagogy with Purpose.

Success at The Clover School is four-fold: academic mastery, the ability to think creatively, mindfulness and social intelligence, and positive connectedness with the world around us. In addition to Montessori fundamentals, our signature Clover School curriculum features unique programming elements to create a purpose-filled pedagogy that helps each child thrive.

Outdoor Education

A connectedness to nature and the physical world around us is essential to our wellbeing, but today's children are at risk of becoming disconnected from the natural world. Outdoor Education offers children the chance to cultivate real world skills, understand our deeply rooted interdependence with nature, receive immediate feedback from the elements, build confidence and resilience, and act as proud stewards of the environment. The Clover School makes a space for experiential outdoor learning with bi-weekly, year-round nature days where students and teachers venture out to local sites for collaborative, adventure-based programming.

Urban Farming

Each of our schools is equipped with an on-campus Edible Lab, managed and maintained by the students themselves under the guidance of our full-time resident Urban Farming Specialist. The Urban Farm expands on our science curriculum, exposing children to a variety of interconnected learning opportunities, from cooking and nutrition to hosting a Farmers' Market. This fosters environmental and food source awareness while also providing a small business education. Students gain a sense of purpose as they work together to achieve their goals with tangible results.

Entrepreneurship

Today's children are tomorrow's change-makers. It's important to foster innovative thinking early on, so we integrate entrepreneurial education into everyday classroom life. We focus on the development of skills that students can use to realize opportunities, develop ideas, acumen, and independent thinking. We encourage innovation, risk-taking, and clever problem solving, setting our students up for success in the future. Students actively collaborate to build and support micro-economies, organize and event plan, and set up fundraising initiatives to realize their goals and dreams.

Arts and Culture

There is no truer expression of self than through the arts. That's why we integrate arts-based educational opportunities throughout the daily cadence of Clover School classroom life at all levels of programming. Students can take advantage of music classes, visual arts training, dance, drama, and the performing arts. Children develop an appreciation through exposure to a vibrant arts culture here in our city. These kinds of educational opportunities nurture a deep sense of self, build confidence, and create space for creativity and fun in the classroom.

WE Schools Program

The Clover School is a proud partner of ME to WE Schools, a unique, four-step program that challenges young people to identify the local and global issues that spark their passion and empowers them with the tools to take action. The WE Schools program provides our teachers and students with curriculum, educational resources, and a full calendar of action campaign ideas. Students gain an understanding of the root causes of pressing issues like hunger, poverty, and access to education as they explore how they can make a positive impact. They also plan and carry out at least one local and one global action to improve their communities and the world.

Physical Education

Daily physical activity is one of the most important elements of healthy living, but the benefits of physical education go far beyond the body. At The Clover School, children are encouraged to embrace the joy of sport, channel the flow state that physical activity can bring about, reap the benefits of self-discipline, healthy competition, collaboration through teamwork, and self-confidence. Students are introduced to a variety of sport and fitness modalities through daily physical programming. Our rotating specialist program gives students the opportunity to experience specialized sports such as martial arts, tennis, soccer, track and field, and skiing in partnership with expert instructors.

Our Team.

The Montessori teacher is a unique kind of educator. They are dynamic and adaptive, willing to trust the natural abilities and emerging capacities of their students. They understand the importance of building connection and trust with their students in order to create a successful and thriving learning environment.

We have built an incredibly talented team of dedicated educators. The importance of what they do simply cannot be understated because educators are not only a defining part of a child's life, but an important part of the family as well. Their passion, hard work, and commitment to the children of The Clover School—as teachers, mentors, coaches, counsellors, advocates, and friends—is remarkable.

Teachers at The Clover School are a very select group of highly trained, accredited Montessori educators who see teaching as their life's calling and have worked diligently to perfect their craft. They are in complete alignment with the values of our school, lead with heart, and understand the importance of connection and love in teaching.

Our gratitude towards our team is expressed by our ongoing commitment to their personal and professional growth. We invest in them because we believe that's what enables them to really show up, each and every day, for your child.

We are truly honoured and so very proud to work alongside this special and talented team in service to your family.

The Clover Code.

Honesty and Integrity

We believe that successful schools are transparent and honest in both word and deed. We never misrepresent ourselves or make empty promises, appreciating that trust is hard to earn but always worth fighting for. We value the relationships we have with the families of our students and work with them to create the best educational experience possible for their child.

Respect and Mindfulness

We care about people and see strength in inclusivity. We model diversity of religion, race, and identity and show respect and compassion to students, parents, and one another. We stand for awareness of ourselves and others and encourage unique individual growth and learning. We also promote respect for the environment and encourage our students to be mindful of their own responsibilities towards the planet.

Creativity and Curiosity

We are an innovative, imaginative, and courageous team who enjoy partnering with like-minded people. Together, we embrace the big picture, continually revitalizing the educational experience for our students to foster creative problem-solving, stellar citizenship, and mindful learning. We believe that school should be fun and inspire confident young people with a genuine desire for lifelong learning.

Health and Happiness

We focus on a healthy lifestyle that promotes physical activity and healthful nourishment leading to wellbeing for both the body and the mind. We understand that happiness is synonymous with good health and work to cultivate a warm, supportive, and safe environment where children feel empowered to joyfully pursue their passions.

Service, Community, and Global Citizenship

We encourage our students to become conscientious global citizens. We value the contributions of individuals who create a better world for us all. We motivate and challenge our students to add value to the community through acts of giving and kindness.

Lifelong Learning

We believe that learning isn't just for students. Every member of the Clover community is encouraged to embrace learning as a lifelong journey. We are committed to fostering continued training, education, and development that is not only professional, but personal too. With our emphasis on a culture of compassion and community, students learn more than just academics; their learning experience infuses them with the importance of good citizenship and caring values that will make the world a better place and this carries through to every member of our classrooms.

We encourage students to develop a mindset of interconnectedness; to understand that we are all connected to each other, to learning, and to the world around us. We help our children grow compassionate hearts in a caring, loving, and mindful environment that appreciates each individual for who they are.

We put ❤️ into all
of our programs.

Toddler Program

Our Toddler Montessori program is the perfect solution for families seeking an enriched and educational experience for their young child that offers a warm and nurturing environment, along with an exceptional curriculum.

At The Clover School, we understand the importance of social and emotional development, and learning early in life. Our unique Toddler Montessori program is designed to meet a young toddler's developmental needs and prepare them for the path ahead.

Our loving and joyful classrooms focus on helping to encourage and facilitate skills of functional independence, language development, self-expression, socialization, and sensorial exploration to support our youngest children in cultivating a healthy sense of confidence and self-assurance.

Our highly skilled teachers welcome children into the classroom, working in partnership with parents to ease young children into daily life at school and incorporate Montessori principles into life at home, which will support your child's healthy development in the areas of language, independence, and self-confidence.

**“A person’s a person,
no matter how small.”**

Dr. Seuss

Areas of Growth:

- Cognitive development
- Speech and language development
- Active, concrete learning using all senses to explore the world
- Confidence, kindness, grace, and courtesy
- Physical mobility and greater coordination, fierce drive towards independence
- Self-care, practical life skills, and independence (i.e. dressing oneself, toilet learning)
- Social skills and cooperation, responsibility, collaboration, manners, compassion

Learning Highlights:

- Fine and gross motor skills, control and coordination of movement, body awareness
- Language development and vocabulary enrichment, self-expression, early literacy skills
- Sensorial activities, sorting, classifying, grading, development of early math skills
- Science, Gardening, Food and Nutrition, Cooking
- Practical Life, Yoga, Music, Sensorial, Dance, Art
- Nature-based learning and programming
- Physical Education

18 months to 2.5 years

Pre-Primary Program

Our Pre-Primary Montessori program introduces 2-to-3-year-old children to a warm and loving classroom environment that will fuel their curiosity and creativity through a thoughtfully delivered curriculum and provide opportunities for social and emotional learning with a focus on joyful exploration.

The Clover School's Pre-Primary Montessori program introduces children to a larger classroom environment with a wider social circle, a challenging and advanced curriculum with more intricate classroom materials to explore, more time for concentrated, focused work, and an emphasis on independence and self-sufficiency.

This nurturing and loving environment continues to provide a low child-to-teacher ratio with a stimulating and engaging academic program, fostering the acquisition of new skills and greater independence. Our unique approach to meeting the needs of 2-to-3-year-olds sets our children up for success as they make their entrance into the Montessori Primary program with confidence and enthusiasm.

“Education of even a very small child does not aim at preparing them for school, but for life.”

Dr. Maria Montessori

Areas of Growth:

- Cognitive development fuelled by new-found independence, exploration, and curiosity
- Advanced language and verbal skills, enriched vocabulary, self-expression
- Social emotional awareness, greater self-regulation, and impulse control
- Self-care, practical life skills, and supporting independence (i.e. dressing oneself, toilet learning)
- Learning by doing, using all senses to explore the world
- Confidence, kindness, and grace and courtesy
- Growing independence, strong will, and self-awareness
- Development of physical coordination, fine and large motor skills

Learning Highlights:

- Concentration and focus developed through joyful exploration with engaging and stimulating learning materials, lessons, and activities
- Fine and gross motor skill development, control and coordination of movement, body awareness
- Language development and vocabulary enrichment, communication, and early literacy skills
- Social skills and cooperation, chores and responsibilities, collaboration, manners, kindness
- Sensorial activities, sorting, classifying, grading, development of early math skills

2 to 3 years

Primary Program

Our Primary Montessori program provides a joyful and nurturing environment that is designed to strengthen the 3-to-6-year-old child's independence, social skills, academic foundation, and self-confidence while cultivating creativity, curiosity, and love of learning.

Imagine a room filled with children engaged in active learning, independently or in collaboration with others. It's alive with focused activity while a highly-skilled teacher observes, gently guiding and supporting students when needed. Welcome to The Clover School's Primary classroom. These bright and friendly, mixed-age environments are lively and upbeat, buzzing with active and engaged 3-to-6-year-old learners.

With a carefully sequenced and mastery-based curriculum, children are taken through a sensorial learning experience that helps set a solid foundational core in subjects like

Reading, Writing, and Mathematics. Their imaginations and innate curiosity are fuelled by deeply engaging lessons in Science, History, Geography, Music, and the Arts.

Our Montessori-trained teachers provide thoughtful guidance to each individual student, foster self-directed learning, nurture social and emotional growth, and encourage children to take a heart-centred approach to all they do. Children have uninterrupted time for deep concentration and concrete collaborative peer-to-peer learning in an environment equipped with scientifically designed Montessori learning materials.

“We worry about what a child will become tomorrow, yet we forget that he is someone today.”

Stacia Tauscher

Areas of Growth:

- Leadership through mentoring younger children
- Accelerated development through exposure to older peer mentors
- Cultivating respect for oneself, other people, the classroom environment
- Clarification and classification of all things in their environment, making sense of the world around them, strong sense of order and justice
- Expressive language and meaningful conversation, curiosity, and questions about everything
- Mindfulness Curriculum designed to foster self-mastery, emotional regulation, improve focus and attention span
- Practical Life Curriculum designed to help promote independence, care of self and the environment, working memory, and executive function skills

Learning Highlights:

- Highly sequential, mastery-based experiential curriculum and learning materials
- Younger children developing literacy skills, learning letter sounds while older children are independently reading and writing, creating projects and stories, learning grammar and spelling
- Younger children are developing a sense of numeracy and patterns, while older children are exploring complex mathematical operations, learning fractions, the decimal system, and geometry
- Collaboration and teamwork through project-based learning
- Mixed-age communities foster enhanced social interactions

Curriculum Focus:

Mathematics	Music Education	Nature Study
Language	Physical Fitness and Sports	Nutrition
Practical Life Skills	French	Cooking
Sensorial	Cultural Studies (Geography, Botany, Zoology)	Yoga and Meditation
Cultural Studies	Urban Farming	Field Trips
Visual and Performing Arts		Special Visitors

3 to 6 years

We pride ourselves on our commitment to child-centred active learning, fostering good citizenship, kindness, and leadership, and modelling wellness in the classroom.

Elementary Program

Our Elementary Montessori program features a classroom environment designed to facilitate intellectual growth, academic excellence, and social emotional learning for students in grades 1 through 6. Creativity, collaboration, and entrepreneurial thinking are encouraged by our project-based learning model and integrated curriculum.

The Clover School's Montessori Elementary program supports children from 6 through 12 years of age, when a child's curiosity is exponential. As educators, our role is to foster that exponential curiosity and channel it towards key subjects and impactful learning experiences. Our students love to learn, socialize, explore, research, plan, and execute projects and engage with community and the wider world around them in meaningful ways and with purpose. Our Elementary classrooms are carefully designed to facilitate abstract learning with a curriculum that often exceeds grade-level requirements pursuant to the provincial standards.

Lower Elementary (grades 1 to 3) and Upper Elementary (grades 4 to 6) students continue to enjoy the role modelling and mentoring advantages of working together in multi-age environments. These mixed-age classroom groups allow for meaningful relationships to develop between teachers and their students, which is integral to a positive learning experience. Younger students have the advantage of learning alongside their older classmates who serve as trusted mentors and leaders in the classroom. Older students blossom in confidence and leadership skills by embracing their role as senior students.

For more information, please visit us online at cloverschool.com

“The function of education is to teach one to think intensively and to think critically. Intelligence plus character—that is the goal of true education.”

Martin Luther King, Jr.

Areas of Growth:

- Leadership and mentoring, mutual respect between younger students and older role models
- Critical inquiry, thinking, and reasoning skills
- Moral learning, empathy, a fundamental belief in progress, a strong sense of justice and morality
- Understanding the contribution of the individual, the universality of the human condition, and the meaning of true justice
- Intrinsic motivation and growth mindset
- Collaboration, teamwork and conflict resolution, critical thinking skills developed through inquiry-based learning
- Time management, accountability, and project management skills

Learning Highlights:

- Rigorous, challenging, and self-paced curriculum, leading children to academic mastery across all core subjects
- Innovation and creative exploration, collaboration through project-based learning
- Individualized, strengths-based learning
- Mindfulness curriculum designed to promote self-mastery, emotional regulation, improved focus, encourage students to help manage their wellbeing, and help promote overall happiness and student success
- Social justice and global citizenship through community involvement, ME To WE, and Montessori Model United Nations
- Entrepreneurial skills and thinking
- Researching, planning, and executing projects
- Sustainability practices and environmental stewardship

6 to 12 years

Middle School Program

Our highly enriched Montessori Middle School program prepares Grade 7 and 8 students for life beyond elementary school. Our signature curriculum provides students with meaningful and challenging learning experiences that build on their strengths, empowering them to grow in independence and thrive academically.

Our integrated curriculum is both academically rigorous and individualized, allowing our students to continue to build on individual strengths and follow their interests while cultivating soft skills like problem solving that are essential to thrive in the world today.

We take full advantage of the vast multitude of resources this great city has to offer to expand upon and enrich our students' learning opportunities. Exploring Toronto's vibrant arts community, taking every opportunity to embark on outdoor, nature-based programming, placing a greater emphasis on entrepreneurship in the context of our booming city, engaging in community service and social justice education are just a few of the areas we explore with students.

Our teachers warmly support authentic self-expression in a high-expectation environment, fostering a close

relationship with peers and adult role models, encouraging community work and social responsibility. We also help students develop critical skills like business acumen by encouraging healthy risk-taking and problem solving in the classroom.

The Clover School empowers adolescents to grow in independence and resilience, to thrive academically, and to come into their own with confidence. We are committed to the success of each student. We take pride in offering Middle School students programming that exceeds provincial standards, giving them an advantage which will help them enter into a variety of competitive secondary school programs. Our Middle School curriculum is designed to prepare these young adults for the social, emotional, and academic growth that lies ahead in high school and beyond!

“You can tell whether a person is clever by their answers. You can tell whether a person is wise by their questions.”

Naguib Mahfouz

Areas of Growth:

- A healthy pursuit of passions and interests supported by discipline and hard work, achieving self-set goals
- Addressing challenges as opportunities for growth, building resilience
- Exploring and coming to terms with integrating different aspects of the self
- Thriving as individuals through authentic self-expression while interacting and collaborating with others
- Growing importance of peer relationships
- Physical and emotional independence, developing awareness of self-identity outside of the family unit

Learning Highlights:

- Rigorous, challenging, and self-paced curriculum across all core subjects prepares students to thrive in high school
- Community service and engagement, social justice
- Health, wellness, fitness, and nutrition
- Financial literacy, entrepreneurship, business, and economics

Camp Clover

Camp Clover is a traditional summer camp with a Montessori twist. Our experienced team of energetic and fun-loving camp leaders can't wait to take your child on a summer adventure!

We are thrilled to offer an exciting, fun, and impactful summer camp experience where children build confidence, revel in discovery, learn new skills, and make great friends while reaping the benefits of the relaxed atmosphere of Camp Clover!

Each Camp Clover summer session offers campers a variety of exciting activities to choose from—sports, visual and performing arts, nature study, cooking, gardening, music, collaborative games, and plenty of outdoor adventuring! Each day, a bit of time will be devoted to academic enrichment in a fun and engaging program designed to meet each child's individual needs.

For more information, please visit us online at cloverschool.com

Summer camp is a place where some of the best and most lasting childhood memories are made!

Mini Campers 18 mos. to 2.5 yrs.

Our Mini Camper experience is divided into two fun-filled, four-week sessions. Each session includes well-balanced, engaging, and educational summer programming rooted in Arts & Crafts, Sports, Music, Language Enrichment, Practical Life, and plenty of outdoor fun!

with summer fun activities including Sports, Visual Arts, Cooperative Games, Nature Study, Water Play, Science, Music, and Academic Enrichment.

Junior Campers 2.5 to 3.7 yrs.

Our Junior Camper programs are divided into four fun-filled, two-week sessions. Each session offers a well-balanced and engaging summer camp experience packed

Senior Campers 3.8 to 6 yrs.

Our Senior Camper programs are divided into eight fun-filled, one-week sessions. Each session offers a well-balanced and engaging summer camp experience packed with summer fun activities including Sports, Visual Arts, Cooperative Games, Nature Study, Water Play, Science, Music, and Academic Enrichment.

Summer Camp Themes

Each Camp Clover Session is organized around a fun and interesting theme, each with its own exciting activities. A few examples of Camp Clover themes include...

Adventures in Space & Journey Through Time

Join us as we explore the universe and blast into the past! Campers train to be astronauts, learn about the solar system, dig for dinosaur bones, make medieval crowns, and so much more as we journey through space and time!

Under the Sea & Call of the Wild

Lions and tigers and bears, oh my! Campers journey into the jungle, swim under the sea, and fly up to the sky to learn all about the earth's creatures. From the tiny ant to the giant whale and everything in between, campers set out to discover all we can about the animal kingdom!

Once Upon a Time & Music and Movie Mania

Lights, camera, action! Welcome to the wonderful world of music, movies, and stories. Campers sing and dance like pop stars, host Mad Hatter tea parties, and get lost in Dr. Seuss' Whoville. Come join us for all of the storybook adventures that await!

Around the World & Summer Celebration

From cultural celebrations from around the world to hosting our own special events—a teddy bear party, unibirthday celebrations, and more—this is one party that you do not want to miss!

While many of our students attend Camp Clover, Montessori experience is not required!

18 months to 6 years

“Our children’s education at The Clover School has imbued them with a passion for learning, respect for others and for themselves, an openness to difference and to new experiences, and a sense of communal responsibility. Strangers and friends often comment on my children’s kindness, curiosity and maturity and I know that a large part of their development has been thanks to the supportive learning environment at school... The Clover School has truly been a gift to our family, and I am so grateful that we made the choice to join the school community eight years ago.”

Reesa

“Without reservation I can say that both of my daughters have prospered and grown in countless ways thanks to the environment, instruction and culture of The Clover School... Not only has it been a great experience for both of my children, it has also provided my wife and I with a community of parents who are equally interested in child-led learning.”

Martin

“As a first time mom, I was apprehensive for my son to attend a full-day program. My husband and I visited numerous Toddler Montessori programs and I will never forget the day we walked into The Clover School - we immediately felt at home and knew that it was the right place for our kids. Joining the Clover community was one of the best decisions we ever made.”

Wendy & Matt

“During their years at The Clover School, we have seen our sons’ self-esteem and confidence grow by leaps and bounds. We couldn’t be happier with the Teachers, Assistants and Directors; they are all extraordinarily caring, wonderful, nurturing people who always put the children first.”

Kate & Matthew

“Can you imagine a school that not only teaches the fundamentals, but also leadership, confidence, problem solving, how to think, how to feel, time management, cooperation, creativity, music, art, independence, critical thinking, courage, innovation, conflict resolution, respect, integrity, and love? This school is our dream come true—the school we wish we had as children, that we can now gift to our kids.”

Giovanni

How To Apply.

We are delighted that you're interested in learning more about Clover School Admissions and we cannot wait to meet you and your child! Here's a quick look at what comes next...

Visit The Clover School

The admissions process is designed to help you learn as much as possible about our school and help us get to know you and your child.

We recommend that you take some time prior to your visit to consider what's most important to you and your child when it comes to finding the right educational environment and come prepared with any questions you might have. We believe that the best time to see our school in action is when classes are in session. This will give you the opportunity to see our school when it is brimming with the energy of our students and our staff.

Apply

Applications are submitted through our online portal. We will send you a link inviting you to apply once you have completed your tour. If you are unable to attend a tour session, we are happy to schedule a virtual tour to answer any questions you might have prior to applying. All new applicants must pay a one-time Application Fee of \$500. The application form and the Application Fee must be received in order for us to begin processing your application. Once our admissions department has had a chance to review your application, we will contact you directly to confirm application status and to discuss next steps for admission and enrollment.

Admission

Admission is on a first come, first served basis for our Toddler to Primary programs. Returning and former students, their siblings, and those previously enrolled in other Montessori schools are given priority. New families applying to our Elementary and Middle School programs (Grades 1 through 8) will be asked to provide additional paperwork upon application, including past report cards, and any educational/behavioural assessments your child may have had. Accompanying paperwork can be sent in via email to our Admissions Director at admissions@cloverschool.com. Upon receipt of this information, your family will be invited to come in for an assessment/interview/visit day to determine your child's suitability for the program.

PLEASE NOTE: You can enroll your child at any program level. Prior Montessori experience is not required. We look for students and families who will fit into our community culture and share our values of progressive thinking, lifelong learning and curiosity, an openness and willingness to work hard and push themselves a little more each day to realize their dreams and fullest potential.
